

Name: _____

Mark: _____ / 100

Instructions

Using only `document.write()`, recreate the following text on a web page (**disregard the dashed lines**):

JavaScript

JavaScript is an important part of Web Development.
It is an easy to use, *cross browser* programming language.

- The first line is a level one heading (`<h1></h1>`).
- Use variables and concatenation to properly write the text out to the page.
- Please use `` and `` for the text formatting.
- **There is no HTML between the `<body></body>` tags. Only JavaScript.**

Submission Guidelines

Upload your assignment to the specified OneDrive folder by the due date with the following file name:

21125_2001_assignment1 (last name, first name)

Note: Make sure that you CC yourself when you send any assignments, so that you can check to see if you have sent it properly, and also so you have a record of sending it in case of email problems.

Due Date and Time:

Tuesday, June 9, 2019 – 09:00.

Marking Criteria

Marks for this assignment will be given as follows:

Criteria	0 Marks	Partial Marks	Full Marks	Mark
Commenting	No Comments	Could have had more comments, or comments don't really describe what the script is doing.	Good commenting throughout.	
	0	5-15	20	/ 20
Marking Comments				
Level 1 heading	First line is not a level 1 heading, or the <h1> is straight HTML.	- N/A -	First line is a level 1 heading.	
	0	–	20	/ 20
Marking Comments				
Variables	No variables used.	Variables set up, but not being used. (10 marks)	Variables set up and being used.	
	0	10	20	/ 20
Marking Comments				
String concatenation	No concatenation used.	Strings concatenated to other strings, not variables. (10 marks)	String concatenation used.	
	0	10	20	/ 20
Marking Comments				
Errors	Page generated error(s).	- N/A -	No errors.	
	0	–	20	/ 20
Marking Comments				
			Total Marks	/ 100
