Name: _____   Mark: _____/ **100**

Instructions

For this assignment, you will use the jQuery library to create some interactivity and animation on a Web page. This can be added to one of your previous project pages, or you can create a completely new page if you wish. You will also need to incorporate a "text-size changer" on the page to change the font-size of the paragraphs on the page.

Requirements

1. jQuery Library: Make sure that you are loading one of the popular CDN versions of jQuery.
2. Create a box that "slides" out from the left of the screen, while fading in at the same time.
3. Create a short message in the above-mentioned box, along with a close symbol (x) at the top-right corner of the box that will close it.
4. Box should then animate/fade out when closed.
5. Create another jQuery effect that will show/hide another box (such as a navigation menu) when clicked.
6. Create "Small", "Medium", and "Large" links that will change your paragraph text to 12px, 16px, and 20px, respectively when each one is clicked.

Submission Guidelines

Upload the folder with your files to the specified OneDrive share by the due date.

The file name for your folder should be:
21128_2001_assignment3_lastname_firstname

*(Note: All code must be **original** (created by you). Any code that is **copied** from online sources, or from the PDFs, or copied from in-class examples is plagiarism. Please refer to the "Academic Misconduct" section of your course outline.)*

Due Date and Time:

Tuesday, July 7, 2020 at 09:00 a.m.

Marking Criteria

Marks for this project will be given as follows:

University of Winnipeg

Criteria	Needs Work	Proficient	Excellent	Mark
jQuery CDN	The jQuery library is linked locally, or no jQuery present.	-nil-	jQuery is loading properly from an online CDN	
	0	5-10	20	**/ 20**
Marking Comments				
Sliding Box	No sliding box, or box not using jQuery.	Uses jQuery, but does not animate nicely.	Box slides in from the left, and fades in at the same time.	
	0	5-15	20	**/ 20**
Marking Comments				
Closing box	No option to close the box, or not closing it with jQuery.	No "X" to close box, link provided instead (10 marks) Box doesn't animate out.	Box can be closed with an "x" at the top-right of the box, and animates smoothly.	
	0	5-15	20	**/ 20**
Marking Comments				
Toggled box	No code to toggle a box on or off.	Box animates in or out too slowly or too quickly.	Box animates at a good speed, and works well.	
	0	5-15	20	**/ 20**
Marking Comments				
Text Size Changer	No text-size changer.	Links provided, but not setting to the required font sizes. Code is present, but does not change the paragraphs.	Small, Medium, and Large links to change text size as specified.	
	0	5-15	20	**/ 20**
Marking Comments				
			Total Marks	**/ 100**
